

GENERAL NOTES

1. All work on this project shall conform to the Standard Specifications for Storm Sewer Construction of the City of Wichita.
2. The Contractor shall be responsible for any costs and arrangements necessary for any adjustment of the Southwestern Bell conduit or cable.
3. All unpaved areas within public right-of-way which may be disturbed by Contractor's operations shall be restored in accordance with City of Wichita Administrative Regulation AR-78.
4. The Contractor shall notify Kansas One-Call (687-2470) a minimum of 24 hours prior to any excavation.

NOTE TO CONTRACTORS

Inspection and testing for this project are to be provided by a Licensed Consulting Engineering Firm under contract with the Owner/Developer. Said inspection to be in accordance with the City of Wichita standard construction engineering practices and certified by a Licensed Professional Engineer. No work shall be performed in dedicated easements or public right-of-way by the Contractor without such inspection, nor shall any work be commenced without written authorization by the City Engineer.

DRAINAGE CALCULATION

Drainage Area = 0.29 Acre
Tc = 10 minutes
Is = 5.34 in/hr I₁₀₀ = 8.54 in/hr
Cs = 0.88 C₁₀₀ = 0.83
Qs = 1.4 cfs Q₁₀₀ = 2.2 cfs
(by Rational Method)
For grated inlet, use orifice formula:
q = 0.6 A √2gh (h = 0.5')
For Qs = 1.4 cfs, A = 0.41 s.f.
Single inlet grate opening = 1.28 s.f.
capacity q = 4.3 cfs > Q₁₀₀
