

NOTE
Girders and Deck may be poured continuously from abutment to the construction joint beyond a pier provided that shoring is maintained in the span back or that pier to hold full D.L. Camber until the falsework in the succeeding span is released.

NOTE
Use Class AAA(AE) Concrete in substructure.
Design Loading: HS20-44 (1000 Ea)
See Sheet 4 For General Notes.
See Sheet 8 For Deck Section, Intermediate Sidewalk Diaphragms and Light Support Bracket Details.
See Sheet 15 for Bar Details.
Bending Diagrams.
See Sheet 11 for Handrail Details.
