The contents as determined by the Survey made is Eleven and sixty three one hundredths (11.63) acres.

The island is very low and sandy, and subject to be frequently overflowed during the annual freshets of the Mississippi and Arkansas rivers.

Surveyed in the year 1st Northern Boundary of Arkansas and Western Boundary of the State of Mississippi. The variation of the Needle was 1° 30' East.

Chains and links.

The meanders of the island are as follows viz:

Beginning at the corner to Sections 3 & 4 on the Western boundary of the State of Mississippi, thence down the Mississippi River
