

E:\nnjects\021\02130\02130-02-drain.dwg Tue Feb 11 13:54:15 2003 Mike Yates

				Undeveloped		Developed	
Area #	Area (sq)	$\bar{y}$	s_{yy}	Q_1 and	Q_3 and	Q_1 and	Q_3
1	1.82	4.36	7.37	4.4	10.7	6.5	12
TOTAL	1.82	4.36	7.37	4.4	10.1	6.6	12

NOTES

1. Determination of O's can be made using the rational method. The O's used were as follows:

	Unimproved	Developed
5% frequency	0.54	0.88
10% frequency	0.78	0.68

2. The runoff from the developed site shall be limited to the same as the undeveloped condition.

3. Outlets area 04-1 shall be served by a private storm sewer collection system.
