CASE A-71226

WESTWOOD
DRAINAGE

DEDICATION

A map of Smith's Village. It features a central road labeled "SMITH CT." that runs vertically. To the left of the road is a large, irregularly shaped area labeled "SMITH". To the right of the road is a grid of five numbered plots: 7, 8, 9, 10, and 11. Plot 7 is at the top, followed by 8, 9, 10, and 11 at the bottom. The plots are separated by lines, and some have additional markings or numbers. The word "WEST" is partially visible on the far left, and "VILLAGE" is written in large letters on the far right.

**CONFIRMATION
MEMO**

PROJECT Westwood Village 4th
JOB NO. _____
TO Vicki Huang, PE.
FROM B. Wootton PE.
REFERENCE Drainage Plan Supplement

DATE 10-20-88

COPIES TO:

File

Attached is an area map which indicates the general drainage within the play area. Only the south 100' of this 200' area drains into this Sump located on 13th St. which does not surpass the 6% allowable CFS within the 13th St. gutter.

I do not think stream source
expansion is required or desirable
for the protection of coral reefs.

Give Me A call if you have any
Questions.

Thank you
