City	ALTERNATE 8	QUANTITY	UM
KDOT	UP		
	Sp. Pr.		
	90P-801 Bridge Painting (Sales Tax Exempt)	1	LS

NOTES:
 Payment for embankment shall be based on plan quantities. Embankment plan quantities were calculated excluding all material within the limits of 0.8 times the wall height as shown in the plans. The volume of material within the limits of 0.8 times the wall height as shown in the plans was calculated to be 320,735 cubic yards, and shall be included in the price bid for "Retaining Walls (Doublewall, Evergreen) or (T-Wall)" and "Temporary MSE Retaining Walls."
 All of the alternate quantities are additions or subtractions from the base bid quantities. Negative quantities are denoted by number surrounded by parenthesis (xx). Negative quantities are subtractions from the base bid quantities; all other quantities are additions. The extension of the negative quantities on the official bid tab will reduce the overall cost of the Alternative. This project will be awarded to the Contractor with the lowest and best total base bid amount plus alternates selected by the City, the total of which is within the Owner's approved budget.
