

FHWA REG. NO.	STATE	PROJECT NO.	YEAR	SHEET NUMBER	TOTAL SHEETS
7	KANSAS	87 N-0194-01	2001	33	43

LEGEND:

Temporary Signal General Notes:

- All wiring installed shall conform to the National Electric Code and local ordinances and requirements.
- All signal cable and feeder runs to be carried overhead on span wire across roadways or in conduit under roadways.
- The operation and maintenance shall be responsibility of the contractor.
- All signal indications, clearances, and sequences shall be in ordinance with current MUTCD.
- The span wire signal heads shall be centered over exit lanes according to construction phase.
- The temporary traffic signal shall be switched on during off-peak hours. When switching signals, flaggers will be required. See this sheet for Temporary Signal Timing.
- The terminal blocks shall be in a weatherproof enclosure.
- All necessary signal head, controller and pole reallocations, whether specifically mentioned or not, shall be Contractor's responsibility.
- Traffic signal heads which are in place and not in use during a specific step shall be removed, or covered with an opaque material.
- Signal phasing and timing shall be set as directed and approved by Engineer.
- Signal controller shall be capable of a standard eight phase operation, with green interval settable from 0 to 255 seconds.
- The traffic signal controller must be capable of storing a minimum of three separate phasing/timing plans, which can be selected on a time-of-day basis.
- In case of signal malfunction, the contractor must respond within one hour.
