pole. 68' West of chain link
fence corner.
Elev. = 129.15 (City Datum)
Elev. = 1316.55 (N.G.V.D.29)

Site Benchmark
"□" North side 13th Street
North, centerline face of inlet
between Doris and Doris Ct.
Elev. = 131.13

NOTE:
Plans show sporadic areas of concrete, asphalt pavement and gravel on site. When constructing the proposed street, the Contractor shall remove these items and store them on site. Only place that any of these materials shall be replaced are along the house and the bar, if there is damage. Removal and any replacement of concrete, asphalt pavement and gravel due to the construction of the streets shall be incidental to the bid item "Site Clearing and Restoration".

NOTE:
Plans show trees that were existing at time of design. Developer has been removing trees on site. Therefore, the Contractor shall visit site and make own determination of tree removal needs. Some trees have been toppled, but their trunks and roots are still in the ground. Removal of trees due to the construction of streets shall be incidental to the bid item "Site Clearing and Restoration".
