LEGEND

- Work Area
- Temporary Asphalt Pavement
- Channelizer
- Tubular Markers
- Type III Barricade
- Type III Barricade w/ Sign
- Single Post/Skid Mounted Sign

Note:

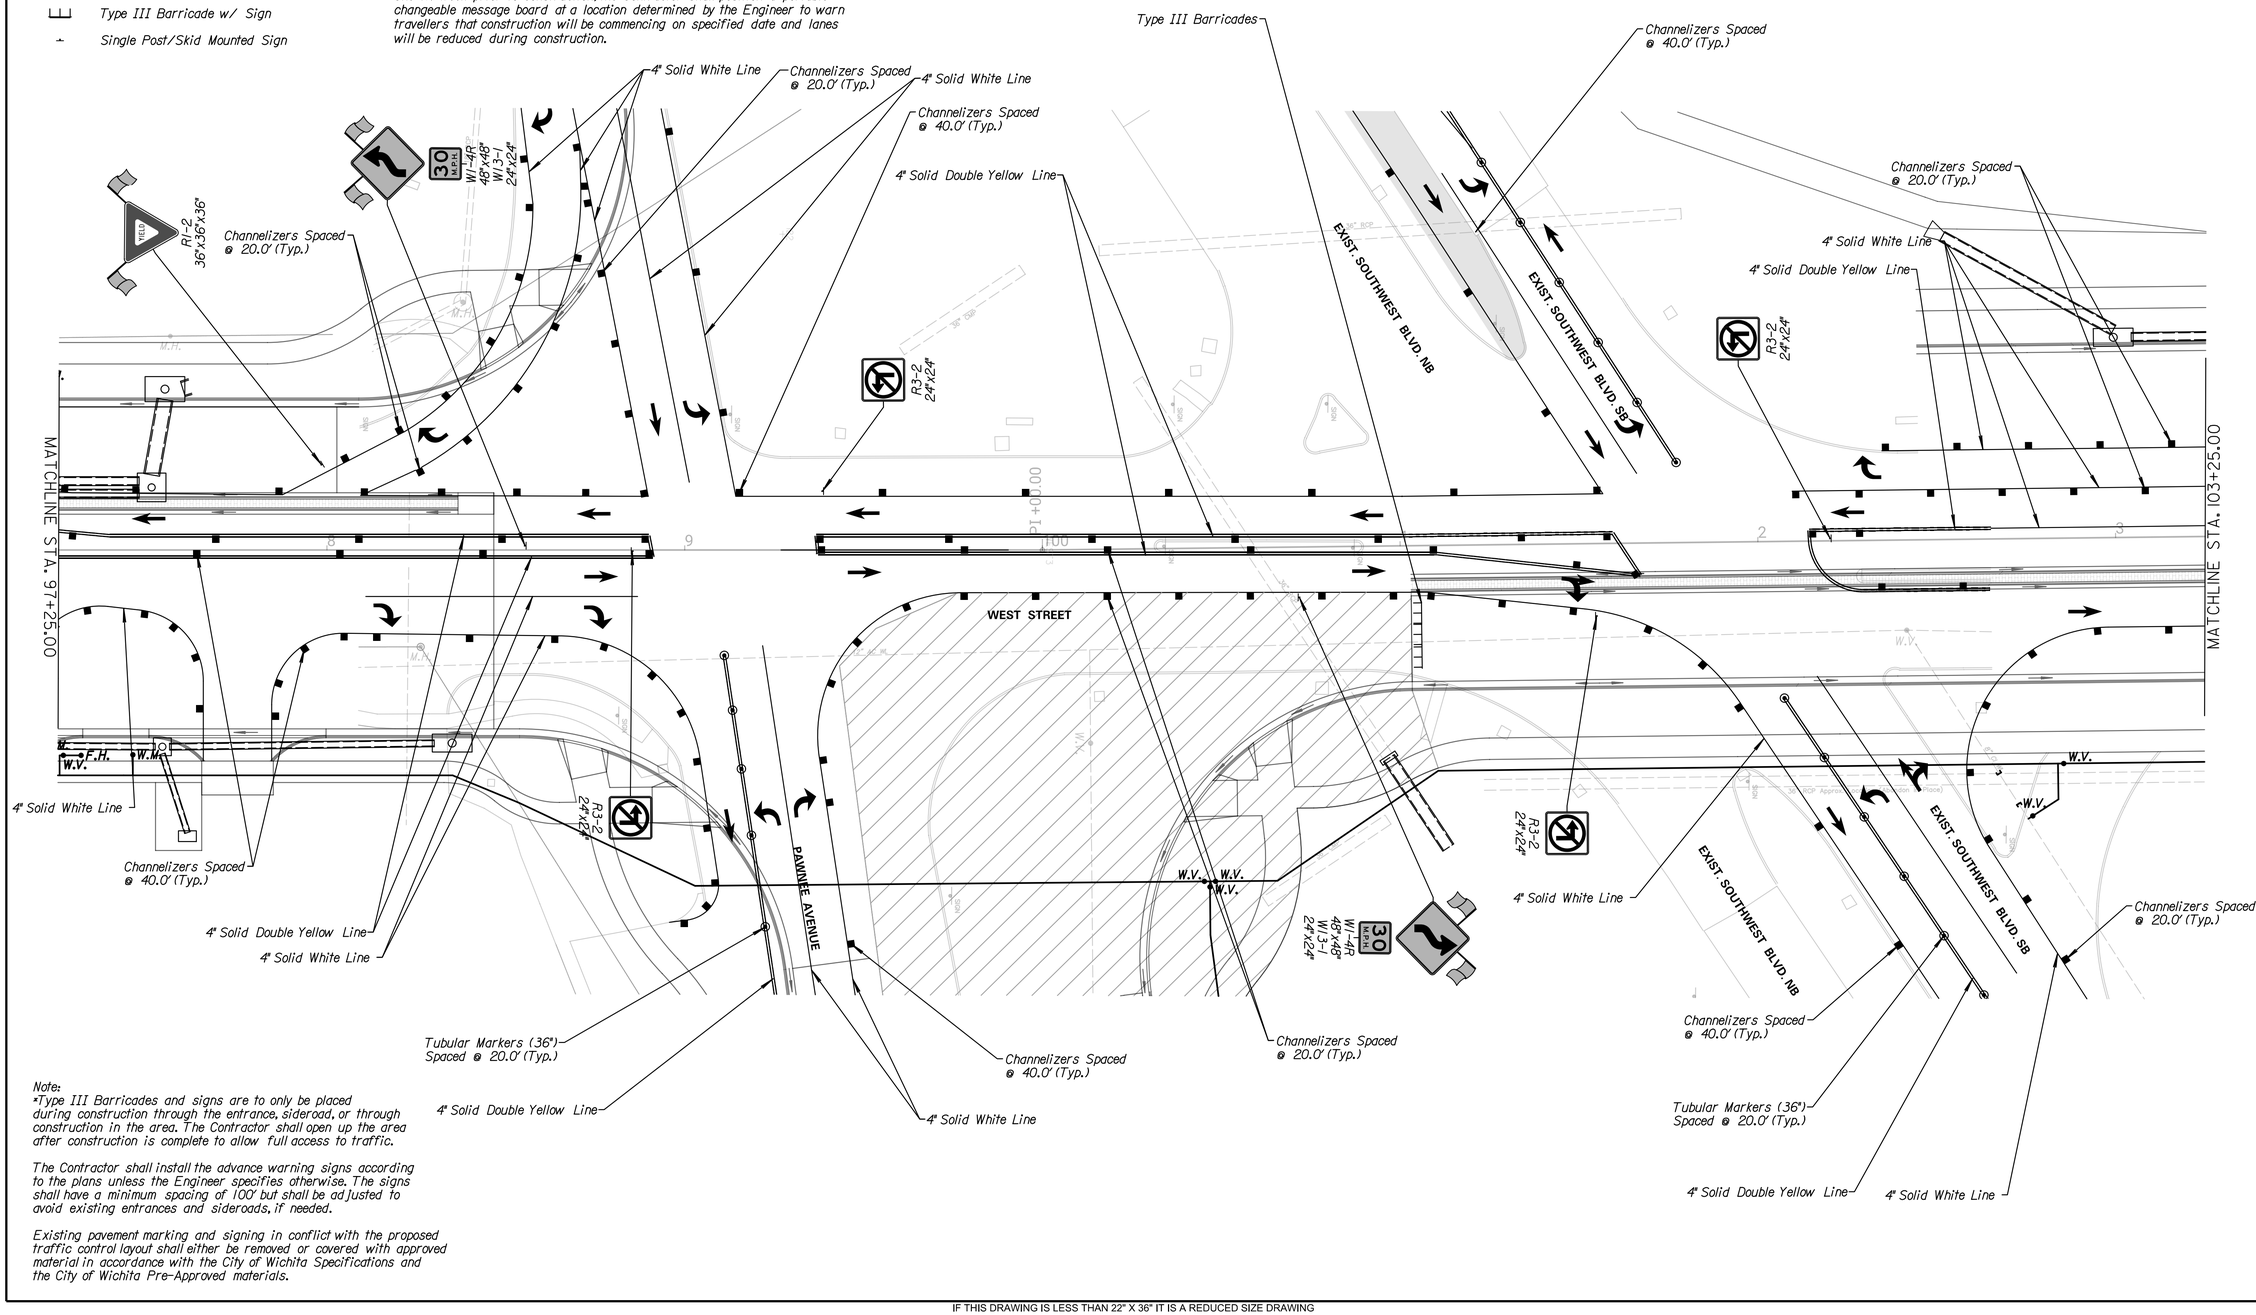
The Contactor shall install the advance warning signs according to the plans unless the Engineer specifies otherwise. The signs shall have a minimum spacing of 100' but shall be adjusted to avoid existing entrances and sideroads, if needed.

Existing pavement marking and signing in conflict with the proposed traffic control layout shall either be removed or covered with approved material in accordance with the City of Wichita Specifications and the City of Wichita Pre-Approved materials.

One (1) week prior to construction, the Contractor shall position a portable changeable message board at a location determined by the Engineer to warn travellers that construction will be commencing on specified date and lanes will be reduced during construction.

SCALE: 1"=20'

20' 0 20' 40'



Note:
**Type III Barricades and signs are to only be placed during construction through the entrance, sideroad, or through construction in the area. The Contractor shall open up the area after construction is complete to allow full access to traffic.*

The Contractor shall install the advance warning signs according to the plans unless the Engineer specifies otherwise. The signs shall have a minimum spacing of 100' but shall be adjusted to avoid existing entrances and sideroads, if needed.

Existing pavement marking and signing in conflict with the proposed traffic control layout shall either be removed or covered with approved material in accordance with the City of Wichita Specifications and the City of Wichita Pre-Approved materials.
